

GODAN South-South Secretariat  
Kiringai Kamau, Deputy CEO

# GODAN's Agricultural Data Sourcing Mandate

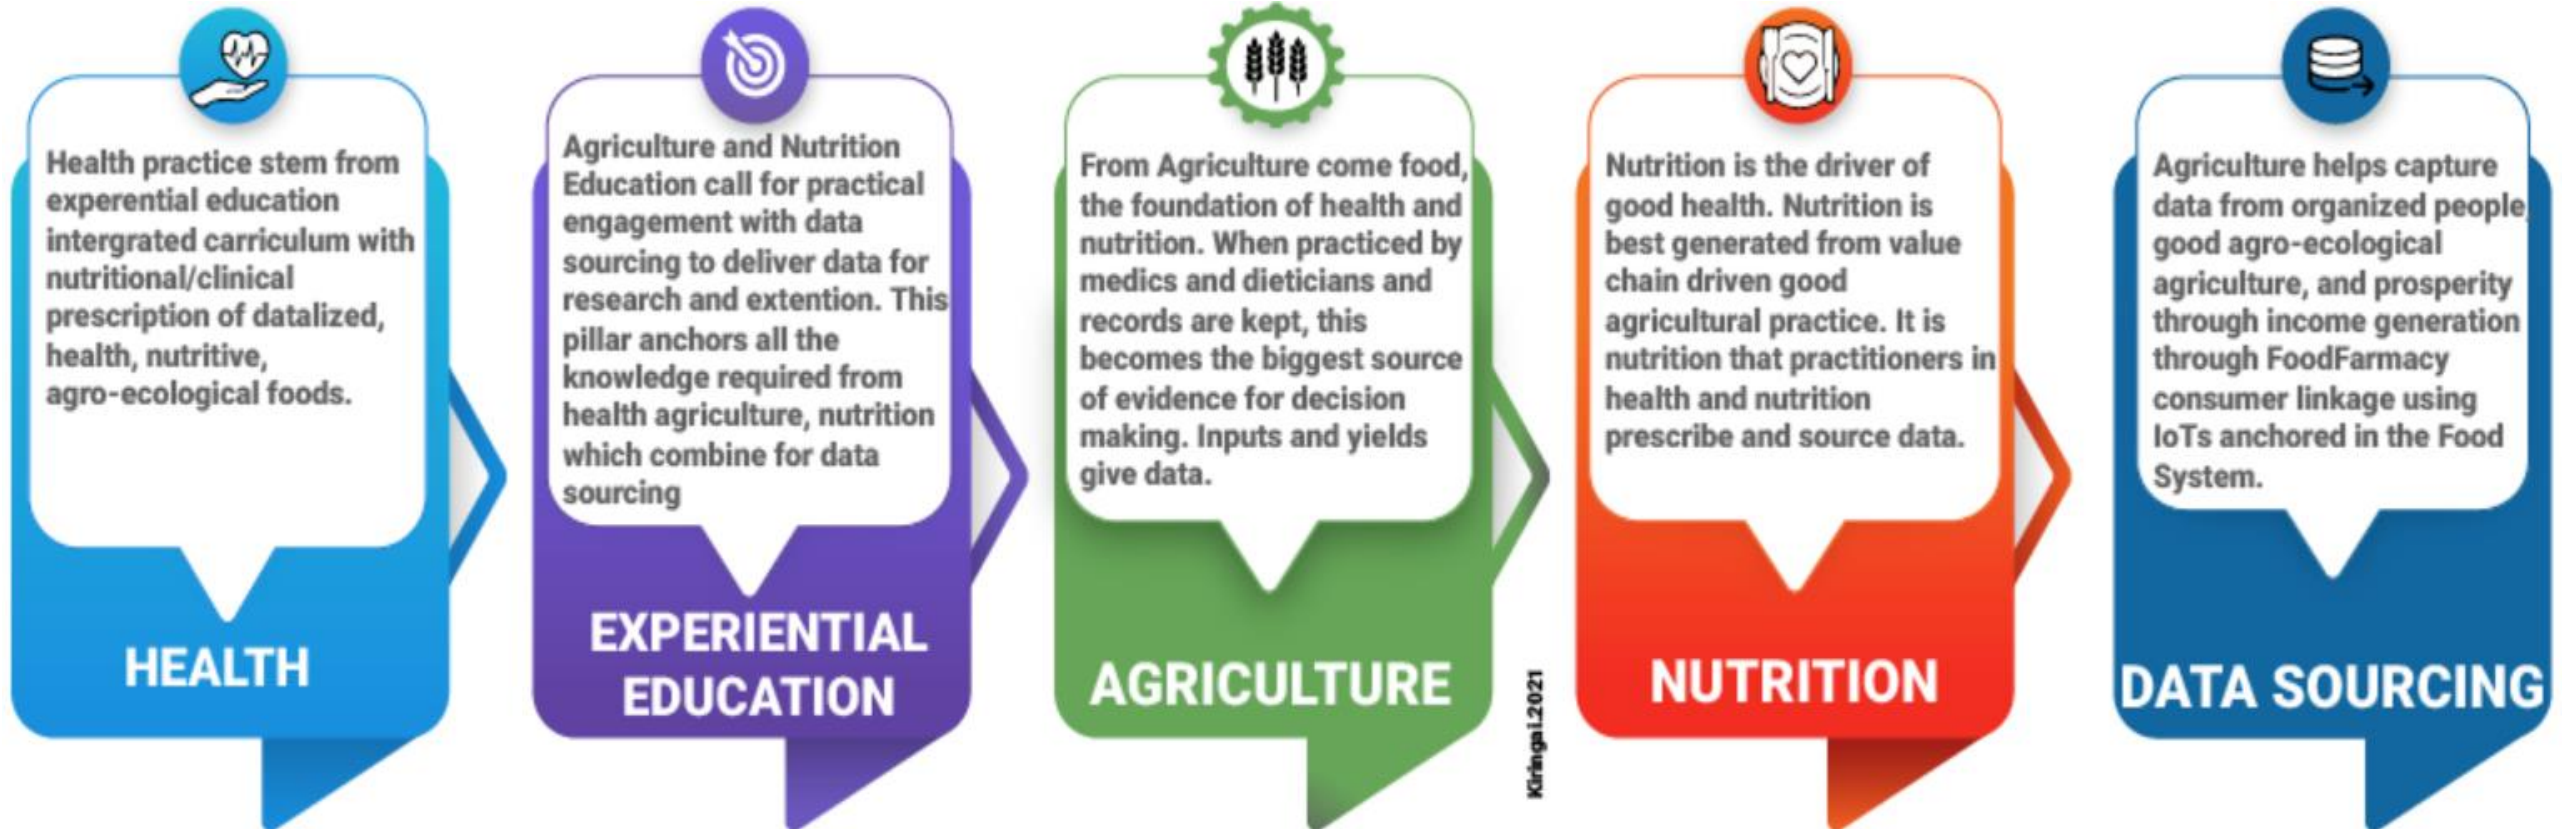

Our South-South Secretariat at P4CDA is driven by the vision of a **People, Planet, and Prosperity-driven** Transformation. It anchors the sustainable development focus of the South-South Ministers [Nairobi Declaration](#) at the 2017 Open Data Conference in Nairobi, which mandated GODAN to:

- Ensure that the [South-South](#) Triangular Cooperation partners benefit from the GODAN Network through collaborative engagements
- Create a framework for capacity and capabilities enhancement in agricultural data sourcing for inclusive sustainable development
- Equip partners with *Insights, and Guidance, for the Capture, Use, Release and Reuse of data in support of Innovation for Economic Growth, Improved Service Delivery, and Effective Governance* for enhanced environmental and social outcomes
- Provide support to partners to co-create sustainability frameworks for interoperable, innovation anchored, open data on agriculture and nutrition

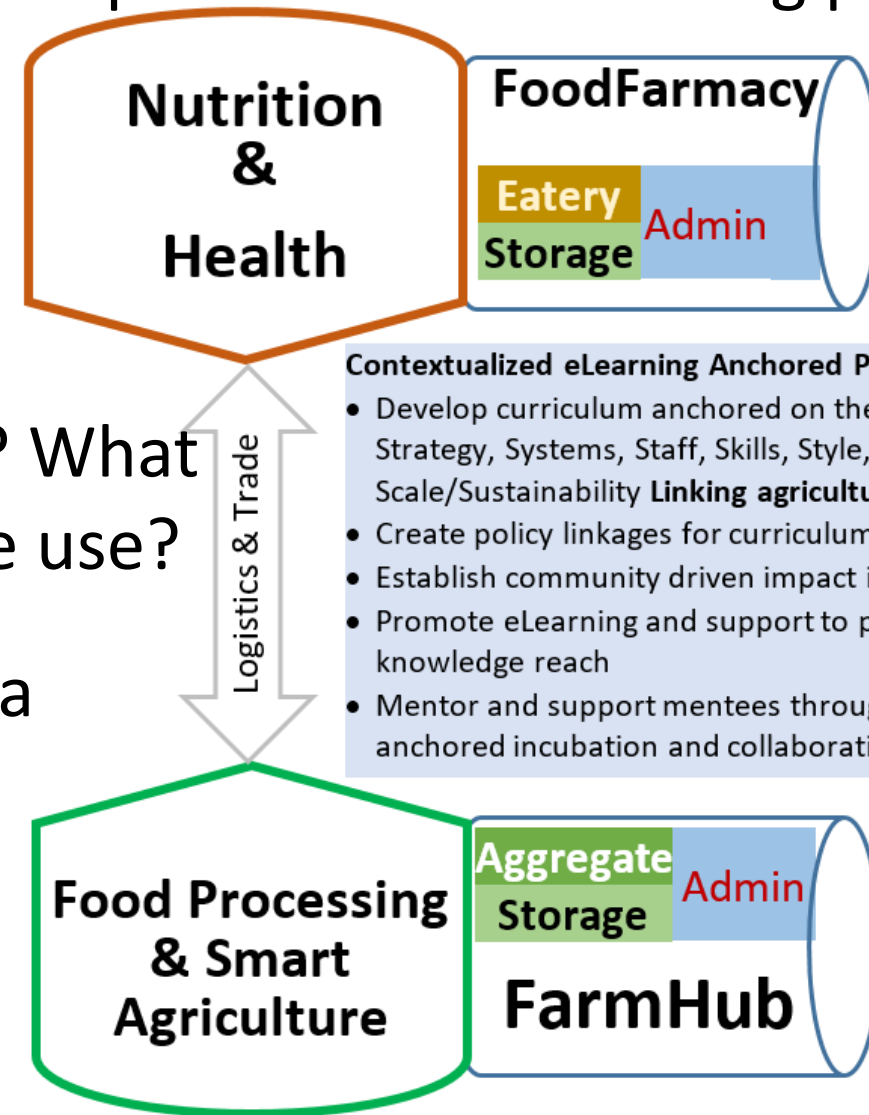

# Key Pillars for Data Sourcing

## The HEEANDS Agenda

# With Pillars in Place, let us focus on co-creation...

1. We think foods: what can be digitized at pre-production and during production?
2. After production what happens to aggregate the produce? Can it be digitized as well? How?
3. Do we document orders from customers? What addressing and associated Logistics do we use?
4. Who places the orders? Do we deliver to a central location or to homes? What location? Is there cold chain for storage?
5. Who invests in the supply chain infrastructure? What knowledge do actors possess to guide processes?

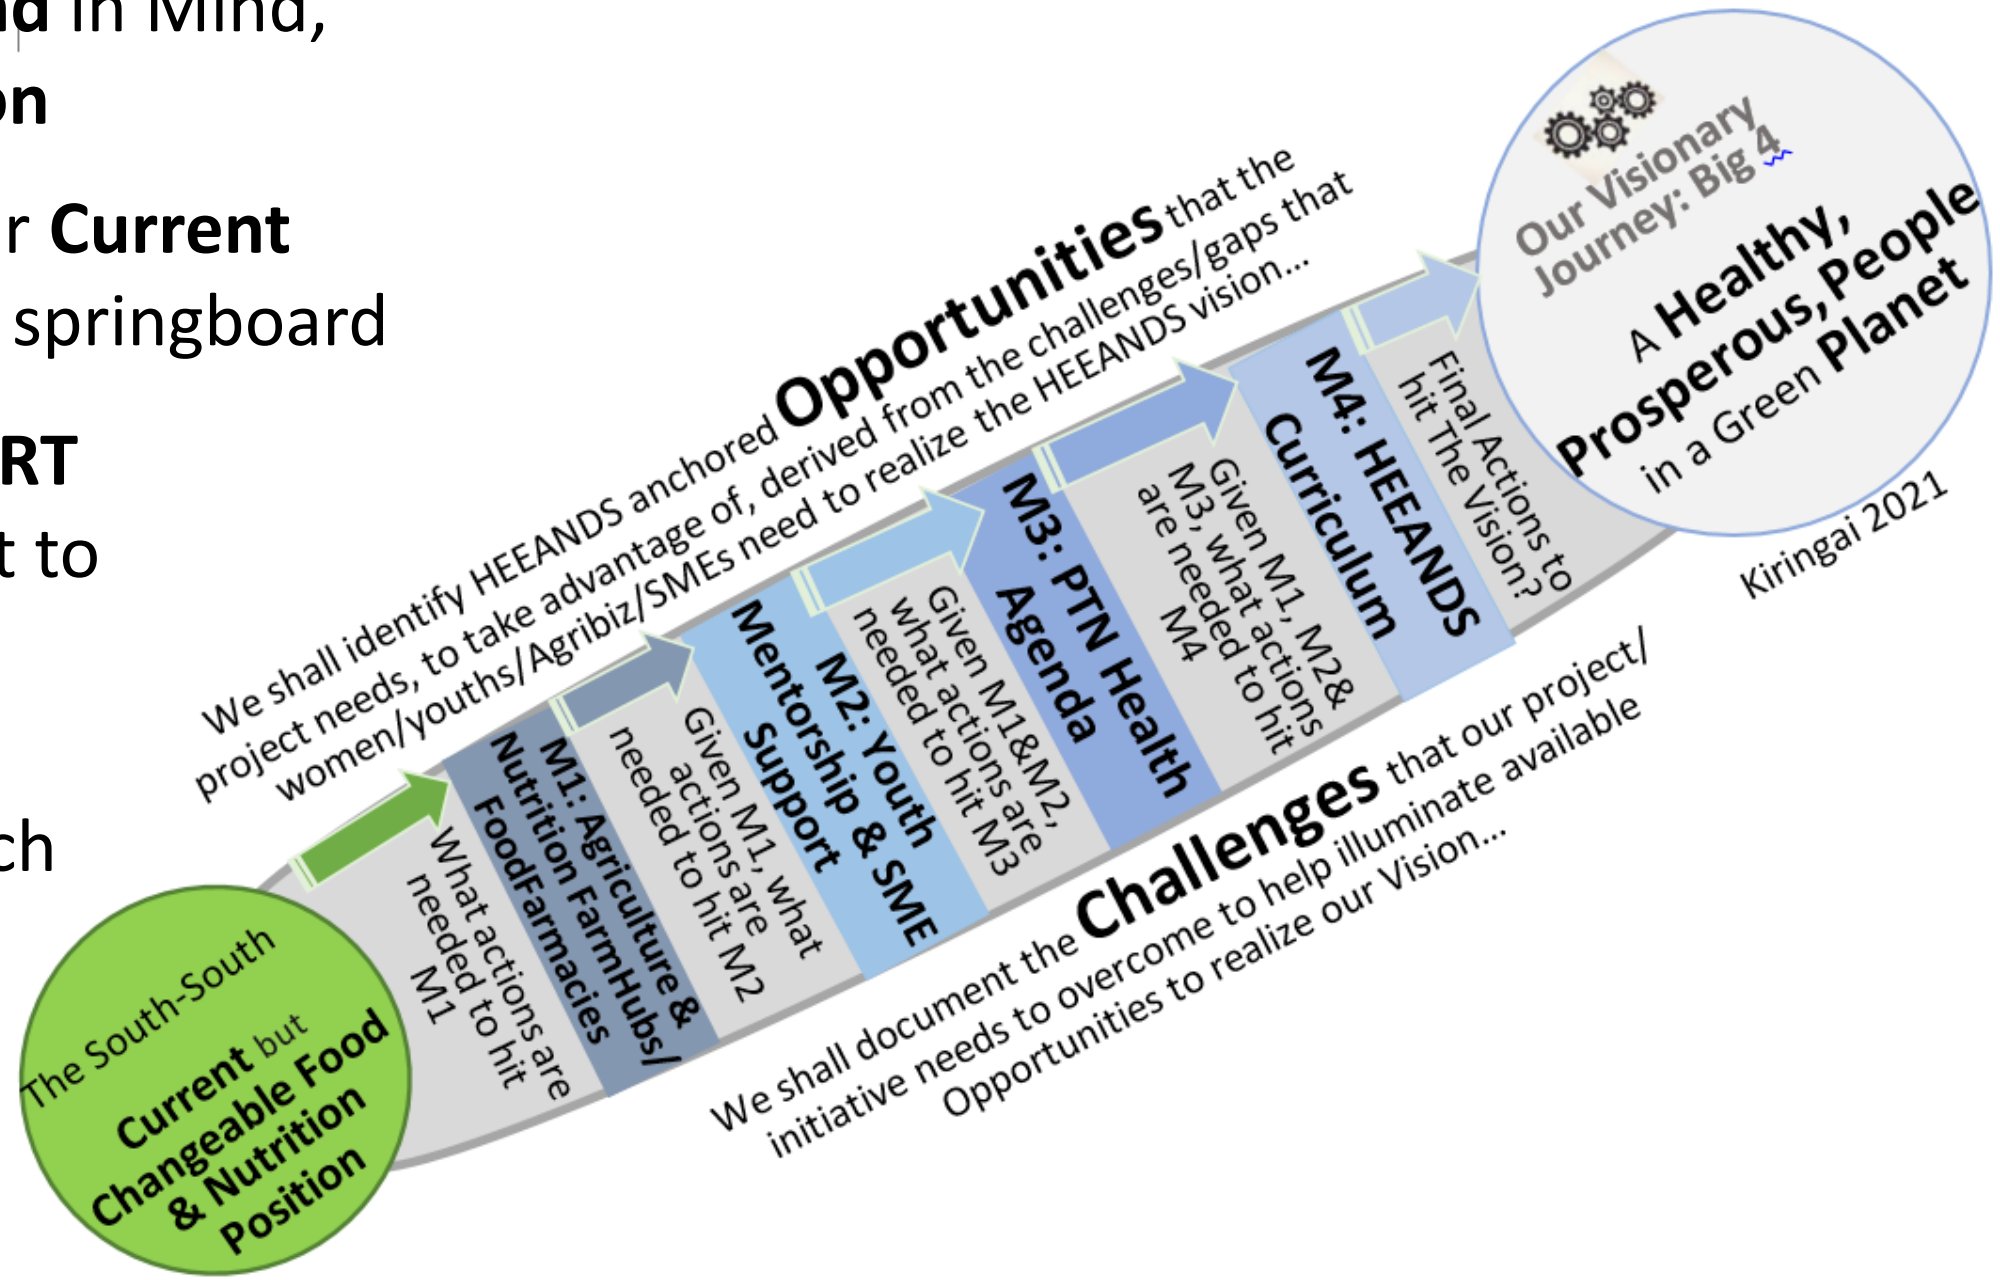

## Contextualized eLearning Anchored Programmes

- Develop curriculum anchored on the K.8Ses of: Structure, Strategy, Systems, Staff, Skills, Style, Shared-value, Scale/Sustainability **Linking agriculture and Nutrition**
- Create policy linkages for curriculum adoption
- Establish community driven impact investment paradigm
- Promote eLearning and support to promote deeper and wider knowledge reach
- Mentor and support mentees through FarmHub/ FoodHub anchored incubation and collaborative opportunities

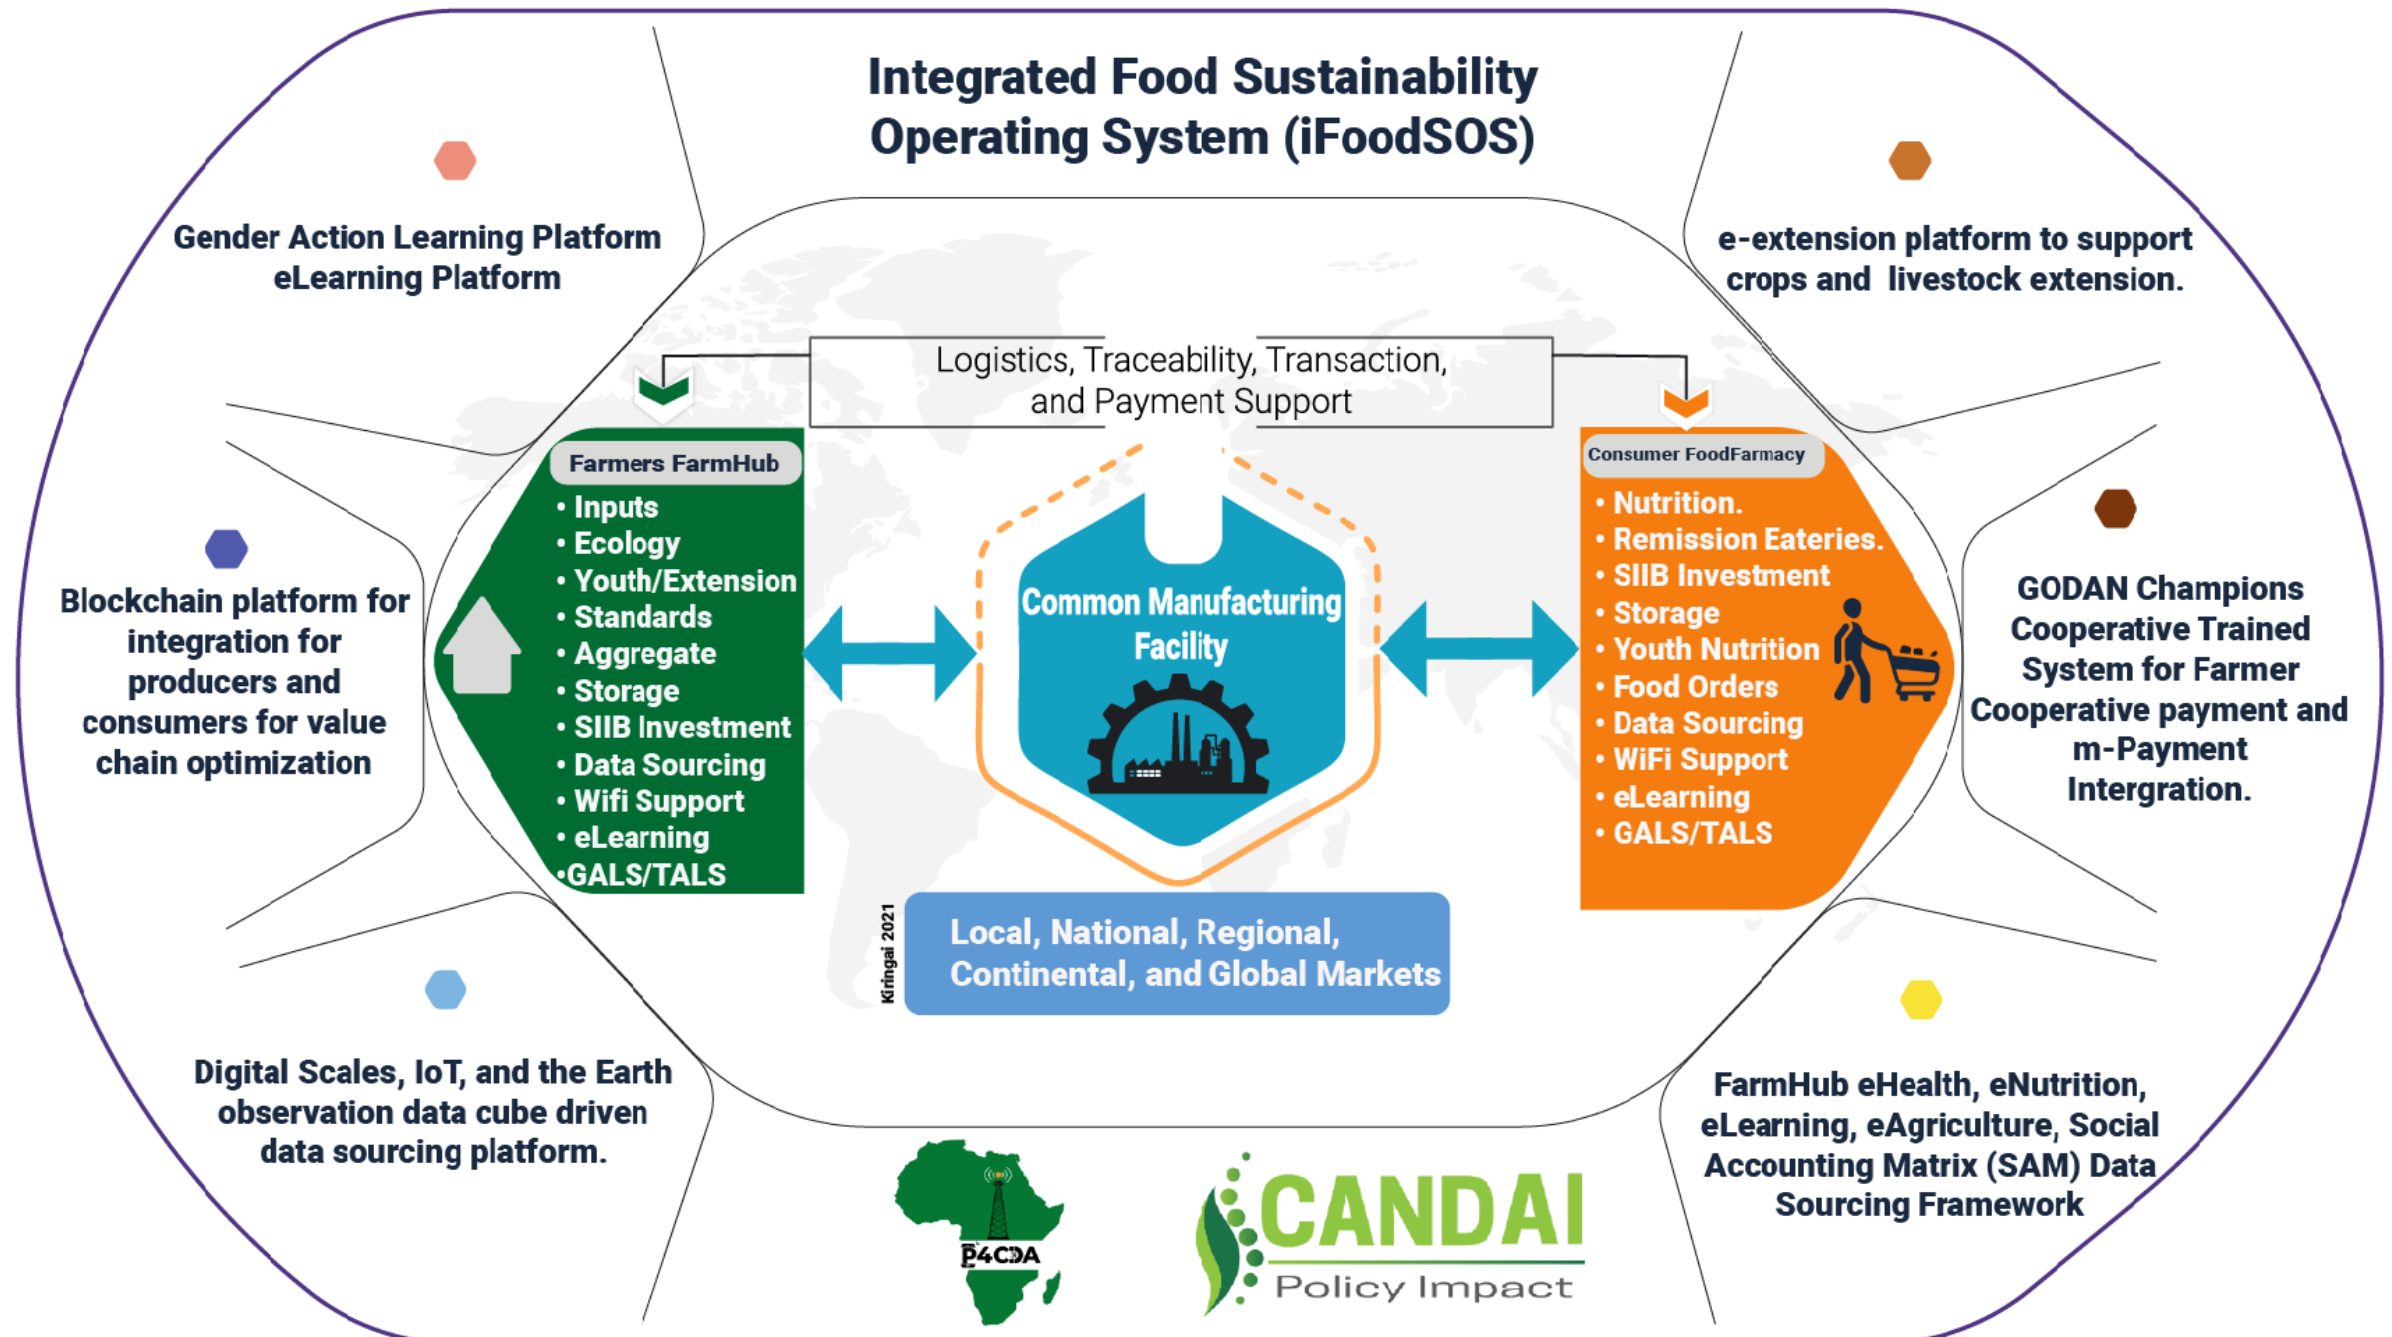

# Every organization needs a *Vision-Driven Pathway*...

1. Start with **The End** in Mind, Define your **Vision**
2. Take Stock of your **Current Position**, its your springboard
3. Define your **SMART Milestones** to get to the Vision
4. Identify the **Challenges** to each milestone
5. Match **Opportunity** to each **Challenge**

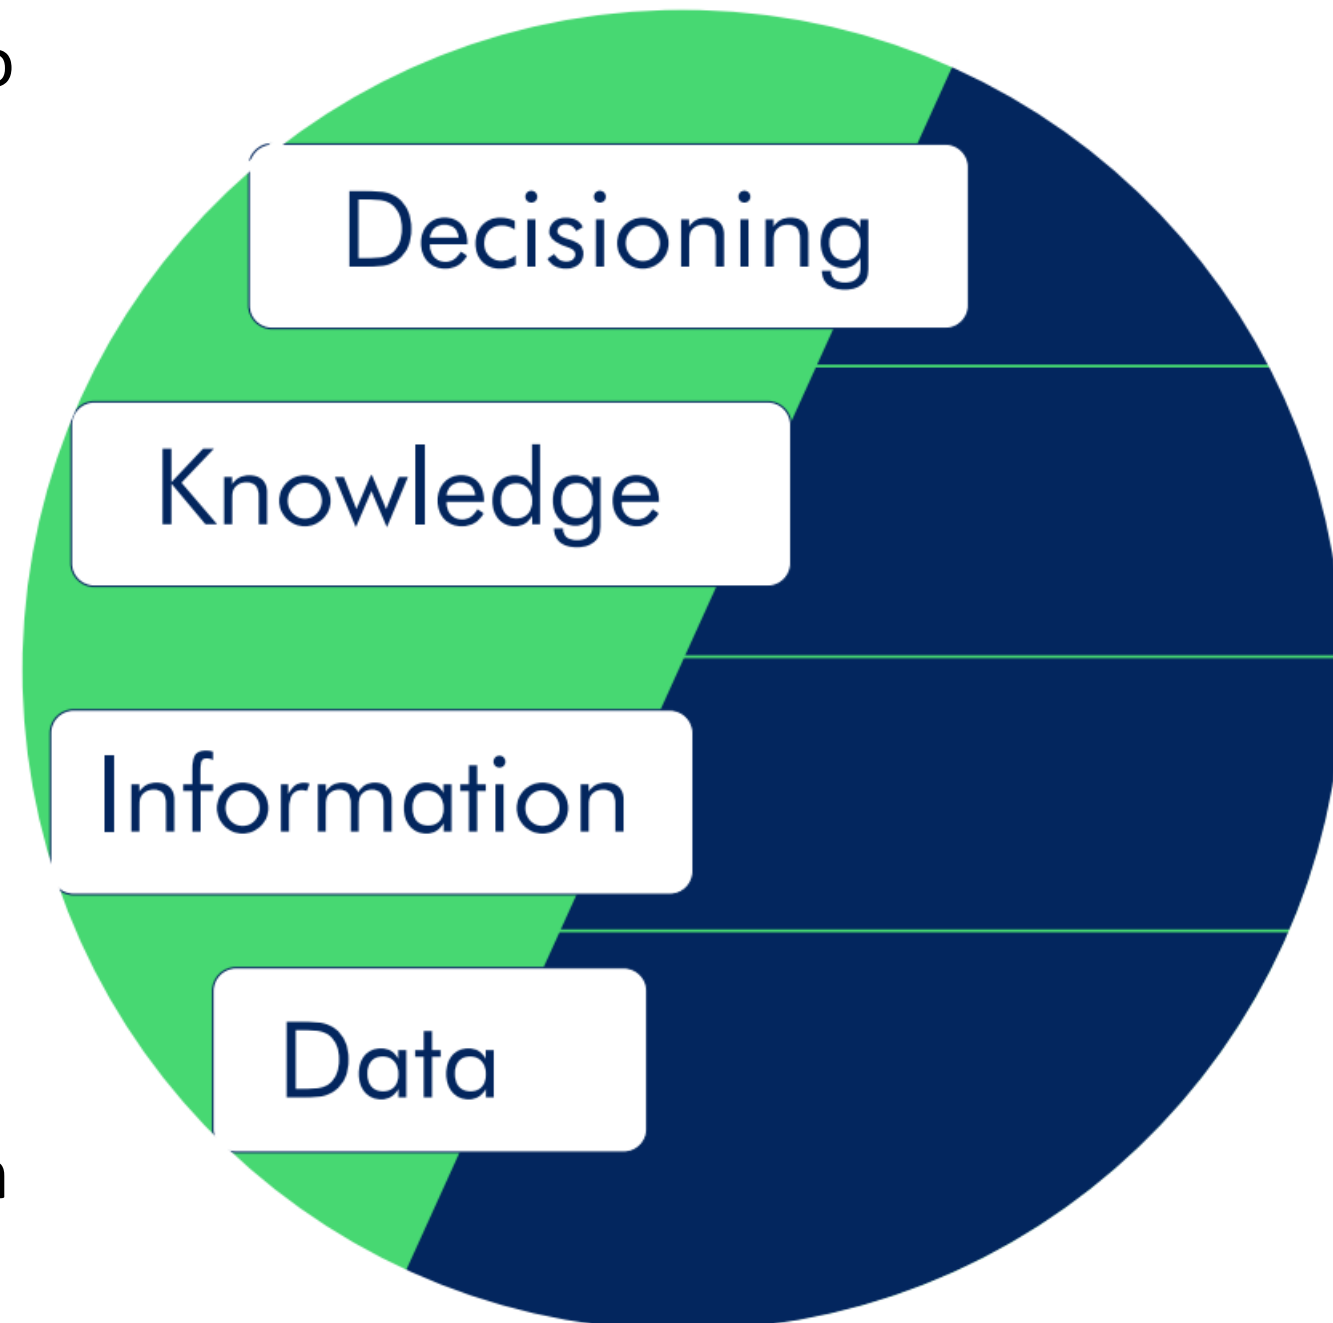

# Data for Research, Innovation, and Decisioning...

# Whither goes the Data Use Cases Think Tank...?

1. CANDAI will support the Think Tank to helps DRI to source **Data** using partnership **Structures**, and anchoring **Strategies** that integrate partner **Systems** evolved with **Staff** with appropriate **Skills** and governed by a leadership that demonstrates **Style** for **Shared value**, which guarantees **Sustainability**
2. We shall support **Analytics** anchored **Processing** to generate **Information**
3. For information births **Knowledge**, which then inspires the right **Decision Making** for Strategy and/or policies
